

P/N: BTA10-V5.3

Item Name: TopX USB Bluetooth Adapter V5.3

Introduction:

This usb Bluetooth adapter is used only for PC to turn Non-Bluetooth PC or laptop into bluetooth-capable. It can connect multiple bluetooth devices simultaneously such as Bluetooth headsets/speakers/mice/keyboards, and smartphones. With upgraded Bluetooth 5.3V+EDR and dual mode (BR/EDR + Low Energy Controller), It makes the wireless connection more stable and reduces the possibility of signal interruption. The maximum transmission distance can reach 20 meters in open space.

Specifications:

- Interface: USB2.0
- Bluetooth: 5.3V (compatible with 5.2/5.1/5.0/4.0/3.0/2.0 versions)
- Material: ABS shell
- Chipset: RTL8761BW
- Compatible with A2DP/HSP/AVRCP/HID/AAC protocol
- Enhanced Data Rate and Bluetooth Low Energy Technology (EDR and BLE) greatly improves the data transmission rate while minimizing power consumption to maintain the best performance
- Compatible with Win/7/8.1/10/11 (driver-free for Win8.1/10/11)

Note:

1. Do not support Mac OS, Linux, Car Stereo Systems, XBOX, PS4 or TV.
2. Please disable the computer's built-in Bluetooth before using this external Bluetooth 5.3 adapter.
