Item Name: TopX RJ45 port blocker set (4pcs + 1 key in a bag)
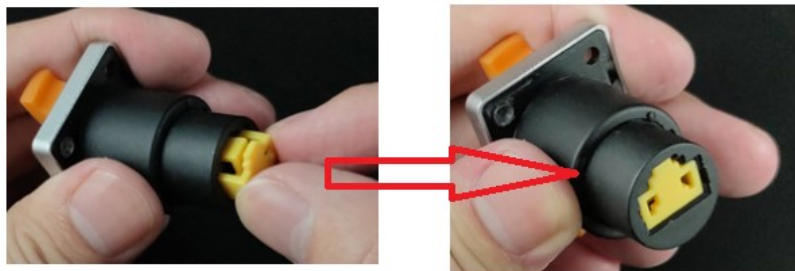

PN: PBL-RJ451

**Introduction:**
This RJ45 safety plug is used to quickly block the open RJ45 ports on computer/laptop/router etc. This helps protect against unauthorized access to a network or system, as well as unintentional or malicious damage to ports. It can also work as dust & moisture Resistant shield. Simply insert it to the RJ45 port and it won't be removed without the unique key (included).

**Specifications:**
- Material: plastic
- Blocker Size: 11.5*9.5*6.6mm
- Key size: 37mm
- Package: polybag

**How to lock:** Insert the blocker into the usb port, it's locked

**How to remove:** Insert the key into the blocker and pull out slightly; Detach the key from the blocker by pressing inward
