

P/N: C31.51A2.5

Item Name: USB A MALE - RJ45 FEMALE LAN 2.5G

Introduction:

USB3.0 Male A to 2.5G RJ45 Ethernet Adapter is a high performance and highly integrated USB 3.0 bus Ethernet controller. It supports 10 M/100 M/1G/2.5Gbps Ethernet function based on IEEE802.3bz LAN standard. Just plug it into USB3.0 port device, you can enjoy super fast transmission speed for file transferring, video conferencing, gaming, and HD video streaming. (Copper networking cable cat6 and above<=20m is recommended to use with this adapter)

Specifications:

- Interface: USB3.0 male
- Material: Aluminum alloy shell+PVC cable
- Chipset: Realtek 8156B
- Standard: IEEE 802.3、IEEE 802.3u、IEEE 802.3ab、IEEE 802.3az、IEEE 802.3bz
- Supports 2.5G Lite (1G data rate) mode, backwards compatible with 10/100/1000 speeds
- Compatible with Win/7/8/10, Vista, Linux, MAC OS 10.8 and above (Free drive for Mac OS and Kernel 5.15 or later, driver required for Windows 7/8/10 systems)

Note:

- The driver program is built in the network card. After inserting the USB network card, double-click the network program in the Explorer to install the driver.
- If test is not 2.5Gbps or system does not recognize it, please install the latest driver from Realtek official website (USB 2.5G, not PCIe 2.5G)
- NOT compatible with Nintendo Switch, TV box, smart phone and smart television
