Item Name: TopX USB 3.0 male to 10 port USB3.0 female hub with DC port + 1M CABLE
P/N: CMP-USB3HUB6

Function:

With this 10 ports USB3.0 Hub, laptop/PC port can be expanded to 10 USB data ports. There are 3 individual on/off switches with LED indicator, easy to show power status. Connecting to a 5V2A power adapter can help data transferring more stable and ensure reliable power supply.

Specifications/Features:

- Material: ABS
- Interface: 10 USB3.0 ports for data transfer and charging. (This hub functions as a USB HUB ONLY, NOT a stand-alone charger. Power adapter is required when connecting with high power consumption devices like external hard drives. The devices connected to the 10 Port hub must not exceed a combined current of 5V 2A)
- Product size: 179*42*25mm, cable length: 1m
- Power supply: DC5V2A (DC3.5*1.35mm)
- Chip: 3523 76P
- Compatible Devices: Mouse, keyboard, Hard Drive, USB Disk, USB Printer, scanner, card reader and so on. Backward fit for USB2.0/1.1.
- Plug and play
- System requirements: Windows, Mac OS, Linux
