Item Name: TopX USB3.0 CHARGING HUB 10 PORTS with switch
P/N: USB3HUB50-10

Function:

With this 10 ports USB3.0 Hub, 1 port of laptop/PC can be expanded to 10 USB data ports in which 4 USB ports can be used for both data transfer and quick charge. Each USB data port has an On/Off switch with LED indicator, easy to show power status. You can turn on/off the separate USB port without having to unplug the whole hub. Connecting to a 12V4A (5.5/2.1) power adapter can help data transferring more stable and ensure reliable power supply.

Specifications:

- Material: Aluminum alloy case
- Interface: 10 USB3.0 ports for data transfer and charging, 4 ports of which for BC1.2 quick charge, (**5V/2.4A/12W Max for iPhone, 5V/1.5A/7.5W for android, power adapter is required. Devices that do not support quick charge protocol can only perform normal charging**)
- Product size: 165*50.5*19.5mm
- Power supply: DC12V4A (**DO NOT USE other power supply with voltage higher than 12V**)
- Chip:GL3510
- Compatible Devices: Mouse, keyboard, Hard Drive, USB Drive, Cell Phone/Tablet, USB Printer, Camera and so on. Backward fit for USB2.0/1.1.
- System requirements: Windows, Mac OS, Linux

Packing List:
